

**MOTION BY SUPERVISOR MARK RIDLEY-THOMAS**

**MAY 5, 2015**

**Request for Progress Report on the Jail Master Plan**

On May 6, 2014, the Board of Supervisors (Board) received a report, as a Set Item, from Vanir Construction Management, Inc. (Vanir), at which Vanir presented options on the construction and configuration for Los Angeles County's (County) Consolidated Correctional Treatment Facility (CCTF). The Board voted to move forward with Option 1B which recommended a CCTF consisting of a two-tower configuration, and additional tasks, including, but not limited to:

- a. Developing performance criteria that will include an efficient and cost effective operational plan for the replacement of Men's Central Jail (MCJ), along with a timeline for MCJ's replacement; and
- b. Negotiating fees with various contractors and selecting contractors.

Subsequently, the Board requested a comprehensive assessment of existing mental health diversion programs utilized by the County, as well as available permanent supportive housing, and the impact of Proposition 47 on jail population management. Consequently, a progress report on the status of the Jail Master Plan is due to the Board.

**I THEREFORE MOVE THAT THE BOARD OF SUPERVISORS:**

- 1. Direct the Interim Chief Executive Officer, and request the Sheriff, to come before the Board of Supervisors (Board) at its meeting of May 19, 2015, as a set

item, to provide a progress report on the Jail Master Plan and tasks undertaken as directed by the Board at the May 6, 2014 meeting; and

2. Request that the Sheriff individually brief each Board office on the status of the Jail Master Plan, the proposed women's facility at Mira Loma and replacement of the Men's Central Jail, including facility bed capacity, timeline for construction, financing, tentative operational costs and the underlying assumptions to support the projects.
